1. **Predominant group of symptoms to distinguish between Parkinson's and Huntington's?** Motor,/ Cognitive,/ Psychiatric
2. **Dr who refused to work in a sexual health clinic that is against abortion?** Autonomy/ Paternalism/ Conscience
3. **Greatest risk factor for completed suicide?** Male gender/ living alone/ single/ unemployment
4. **NMDA is what type of receptor?**
5. **Postnatal psychosis occurs after how long?**
6. **Patient shows brainstem features after arm exertion with BP difference of 30 mmHg between both arms. Which artery is occluded?** Anterior cerebral artery,/ Middle cerebral artery/, PICA/, Subclavian artery
7. **Which medication when given with escitalopram may cause a fever?** Tramadol,/ Valproate/, Diclofenac
8. **Antidepressant with Non linear kinetics above therapeutic doses?** Venlafaxine, / Citalopram/, Sertraline/, Fluoxetine
9. **Depot with longest half-life?** Paliperidone palmitate,/ Long-acting risperidone, /Zuclopenthixol decanoate/, Zuclopenthixol acetate
10. **Half-life of citalopram?**
11. **Half-life of fluoxetine?**
12. **Which one is a Gestalt law?**
13. **What age does fearing death start? 5 to 7 years**
14. **MOA of Vortioxetine?**
15. **Inability to recognize previously well-known faces?**
16. **Inability to recognize landmarks?**
17. **Which CNS neurotransmitter cannot be detected at birth?**
18. **MRI changes from puberty to adult brain?** Reduced grey matter, Increased white matter/ Increase in grey and white matter/ Increased grey matter and reduced white matter
19. **Pathway involved with reward system?** Mesolimbic
20. **Alcohol dependence – which brain region/area is implicated?**
21. **Police man sees well dressed man and doesn't find him suspicious and doesn't stop him?** halo effect, hawthorne, primacy, pygmallion effect
22. **Anti-inflammatory cytokine?** IL1, IL10, IL6, TNF, IFgamma, INT alpha
23. **Dopamine process that occurs in patients treated with schizophrenia receiving recurrent treatment? 30% increase in D2/D3 receptors in the brain**
24. **Which is a first rank symptom? thought block, thought insertion, derailment, tangentiality**
25. **Corewell family interview asses what?** Depression / Emotional response
26. **Which part of brain responsible for onset of puberty?**
27. **Where is Orexin synthesized?** Lateral hypothalamus
28. **Visual hallucinations – which area of the brain?**

29. **What hallucination if patient reports arm being moved although it isn't?** Kinaesthetic hallucination
30. **Which is found in post mortem suicide patients?** - one or two alleles of serotonin transporer promoter gene / reduced 5-ht1a and 5-ht2 receptors in prefrontal cortex
31. **Which benzo does not require dose adjustment with HIV treatment?** Lorazepam / Diazepam / Clonazepam
32. **Schizophrenic patient with marked disorganized thoughts is given which term?** Schizophasia?**??**
33. **Homozygous APOE4 found in?**
34. **Dysbindin + neuorglian found in?**
35. **Psilocybin acts on?** 5-HT2A
36. **MDMA acts on?** Serotonin vesicles
37. **Patient doesn't speak, eat or move but repeatedly completes motor actions as instructed?**
38. **MOA of Buspirone (asking for detail – 5-HT1 presynaptic or postsynaptic)?**
39. **Which antiepileptic increases risk of ASD?**
40. **Which brain structure is atrophied in ASD?** Cerbellar vermis
41. **What do epigenetic changes do?**
42. **Which sleep stage consists of 50% delta waves?** NREM 1, 2, 3, REM
43. **What does verbigeration mean?**
44. **Someone hears friend talking about them in another city?** Extracampine hallucination
45. **Feature of dominant parietal lesion?** Finger agnosia / Prospagnosia / Constructional apraxia / Neglect
46. **Which is a psychological screening tool? - Edinburgh post-natal depression scale / Yale brown OCD / PANSS / HADS /** Montgomery-Åsberg Depression Rating Scale (MADRS)
47. **Screening test for depression in clinical studies?**
48. **Test to assess activity of daily living**
49. **A person losing their sense of self awareness - what is this called?**
50. **Maslow hierarchy of needs - which one is a need?** Esteem
51. **Eysenck theory of personality –** genetic/ biological/ social learning/ cultural influence
52. **Incentive salience in grief?** Yearning for their belongings
53. **Sally Ann test**- Theory of Mind
54. **Mentalization in adolescence - which part of brain is involved?**
55. **Piaget which stage does this display - one child gets hurts and cry and the second child doesn't understand the other child's emotion?** Preoperational
56. **Harlow's experiment on monkeys – what theory?** Attachment
57. **Imaging studies/findings in PTSD?**
58. **Imaging studies/findings in brain after longterm use of MDMA?**
59. **The person believes their spouse was replaced by an impostor?** Capgras / Fregoli

60. **Person after moving to a new town has total memory loss of identity + autobiographical memory (doesn't say for how long)?** dissociative amnesia / derealization, / depersonalization, / dissociative fugue
61. **Which antidepressant to start in patient with hyponatraemia?** Mirtazapine / amitryptiline
62. **Which is involved in Wilsons disease?** Plantar extension, Argyll-Robertson pupil / Motor weakness / Chorea / Dysarthria
63. **NMDA Auto-immune encephalitis - which physical condition is associated with?** Ovarian teratoma
64. **What is characteristic of Wernickes aphasia?** Fluent aphasia
65. **Chronic traumatic encephalopathy- microscopic finding?** Amyloid plaques, Tau Proteins, Alpha synuclein
66. **Which one is an endocannabinoid?** Anandamide
67. **Hypsarrhythmia - which epilepsy found in?**
68. **Cortico-temporal spikes (note TLE was not an option)?**
69. **% of birth defects in mothers on valproate, regardless of the dose?** 8-12%
70. **Agitation + aggression seen in what antiepileptic?** Levetiracetam /Topiramate / Lamotrigine /Phenytoin
71. **Function of microglia?** Phagocytosis
72. **What structure is located closest to subthalamic nucleus?**
73. **Which neurotransmitter is a purine?** ATP / Substance P
74. **Radiological findings in William's syndrome (detailed q.)?**
75. **Children in same sex parent family are more likely to show what?** Stigma / Become homosexual later in life
76. **Self-served bias?**
77. **Ribot hypothesis**
78. **Frequency of tremor in Parkinson's**
79. **Dysthymia criteria according to ICD-11? - P**ersistent low mood / last more than 24 months / Low mood and fatigue
80. **Which mania condition is least likely to respond to ECT?** treatment resistant mania, mild mania, mania with psychotic symptoms, mania with delirium, mania with sodium valproate
81. **How many nucleotide repeats in Huntigton's for later onset and reduced penetrance?** 36-39 repeats
82. **What does heritability mean?**
83. **Test for constructional apraxia?** Tower of London
84. **Last to go in nicotine withdrawal symptoms?** Craving
85. **Hypothalamic-pituitary-adrenal (HPA) axis in depression?**
86. **ICD-11 criterion in depression?** Melancholy / Pseudodementia

87. **Man when asked to use a hammer he can't but at home can use one without issue?** Ideational apraxia / Ideomotor apraxia
88. **What does MSR detect?** Metabolites
89. **Hypertensive patient on lithium, most suitable anti-HTN?** Atenolol/, Bendrofluthiazide, /NSAIDs,/ Furosemide
90. **CATIE study findings?** Olanzapine associated with lowest dropout rate in CATIE /25% dropped out of the study in the first 18 months / Haloperidol is the best antipsychotic in schizophrenia
91. **Comparing between allele frequency in diseased population compared to control population?** Association study / Linkage analysis / Recombination fraction / LOD
92. **Difference between NMS and SS? Clonus / Raised CK**
93. **Language milestone in 2nd year of life?** One and two-word sentences
94. **Unemotional- callus personality characterized by what?**
95. **What does imprinting mean?**
96. **Monotropy according to Bowlby's views means ..?**
97. **Q, Lady with headache of 4 years and feels a lady caused it. What type of hallucination or delusion?** Somatisation / Somatic passivity
98. **The one with transient paranoid tendencies and dissociative features? Schizotypal / Schizoid / Paranoid**
99. **What does microRNA do?**
100. **Modern psychiatry classification?** Operationalised/ Categorisation / Dichotomisation / Standard / Empiricism
101. **In computational psychology, reward prediction error is the difference between reward received and …?**
102. **Neuroimaging finding in PTSD**
103. **Which is true about GHB?** Dissociative anasthetic / Half-life 30 minutes
104. **Type of learning if rat avoids being shocked in an experiment?** Avoidance / Classical conditioning
105. **Epithalamus, hypothalamus and thalamus are a part of?** Prosencephalon / rhombencephalon / metencephalon / myencephalon
106. **Which antibiotic when used with clozapine leads to leucopenia? Nitrofurantoin / Trimethoprim / Co-amoxiclav / Ciprofloxacin**
107. **Which is NOT a prodrug? Aspirin / Prednisolone / Desipramine**
108. **Which is used to detect short to medium length CNV? Microassay / FISH / Karyotype / Restriction fragment length**
109. **Elderly man sees soldiers walking through the wall. Not distressing and not fixed?? Anton disease / Charles Bonnet / Delirium / Lewy body dementia ??**
110. **What of the question about the test for frontal lobe function? Stroop test/ Interlocking finger test / Serial sevens / Recalling 3 names**
111. **Which is not from the Big Five Personality Traits? Carefulness**
112. **Scale asking to 'agree' or 'disagree'?** Thurstone / Likert / Semantic Differential

Conformity, Convergence theory, Social influence, Deindividuation

113. A law abiding person in a crowd of people throwing stones, joins them to do the same

LFTs, U&Es, FBC, Blood glucose level, Blood pressure

114. Methylphenidate
115. Atomoxetine
116. Agomelatine

Fixed ratio, Fixed interval, Variable ratio, Variable interval, Continuous ratio, Continuous interval

117. Man receives pension at the time of retirement:

Forced grasping, Stereotypy, Mannerism, Mitgehen, Stereotypy

118. Patient with schizophrenia repeatedly holds the doctor's hands even when asked to stop the act:
119.

Beneficence, Non-maleficence, Justice, Utilitarianism**, Paternalism**

120. Dr who refused to work in a sexual health clinic that is against abortion:
121. Group therapy offered instead of individual:
122. Drs does not tell cancer patient findings and chose to monitor via investigations:
